

Genetics Sponsored Seminar
(No Charge to attend but please register if you plan to attend)

May 23, 2009 from 4:00 pm to 7:00pm

Topic:
Inherited Hepatic Vascular Malformations in Small Breed Dogs

Speaker:

Sharon A. Center, DVM, DiplACVIM
Professor
Department of Clinical Sciences
College of Veterinary Medicine
Cornell University
Ithaca, NY

Dr. Center is the principal researcher for a study that Papillon Club of America and other small breeds are supporting. Title of the Study: Genotyping Small Breed Dogs with Porto-systemic shunts, vascular anomalies and Microvascular Dysplasia. She will be speaking on the information she is doing research on for Papillons and other small breeds in the area of Liver abnormalities.

So that we can get an approximate number of guests attending, please respond to: Stephanie Koeniger, PO Box 100327, Anchorage, AK 99510-0327 or email: slknrk@gci.net.

I will be attending the seminar_____
