

Papillon Club of America Health & Genetics

Cumulative AKC Canine Health Foundation Research funds given by the Papillon Club of America via the Canine Health Foundation

52031	Investigation of Candidate Loci for Progressive Retinal Atrophy in the Old English Sheepdog and Papillon Breeds of Dog 2000 12/31/2000	\$22,678.00

2442	Investigation of Candidate Loci for Progressive Retinal Atrophy 2004 12/31 2004	\$14,750.00

00257	Investigation of Predictors of Outcome for Canine Mast Cell Tumors paid 5/31/2005 \$1250.00 paid 5/30/2006 \$1250.00 2005 TOTAL	\$2500.00

#00642	Investigation of the Genetic Mutations Underlying Progressive Retinal Atrophy 5/4/2006 \$3950.00 5/30/2007 3950.00 2006-2007 TOTAL	\$7000.00

00963	Genotyping Small Breed Dogs with Portosystemic Vascular Anomalies and Microvascular Dysplasia 2008 6/18/2008	\$7000.00

01160-A	Development of Contrast-Enhanced Magnetic Resonance Angiography for The Diagnosis of Congenital Vascular Liver Disease in Dogs 2009 9/25/2009	\$ 1000.00

01352-A	Detection of Brucella canis DNA in canine urine, semen and vaginal cells via qPCR Analysis 9/29/2009 \$ 1000.00 2010 - 3 projects : Total Amount	\$10,000

01248	Whole Genome Association Analysis for Cryptorchidism in Dogs	\$2500.00

00970	Tissue Regeneration Using Canine Mesenchymal Stem Cells	\$5000.00

01272	Isolation and Characterization of Canine Induced Pluripotential Stem Cells	\$2500.00
