

COMMON MEDICAL DISORDERS OF THE PAPILLON

COMMON MEDICAL DISORDERS OF THE PAPILLON

By Thomas K. Graves, D.V.M., D. A.C.V.I.M., PH D

This book contains eighteen common medical conditions of the Papillon. Dr. Graves presents a clear description of each disorder, as well as concise and readable information on clinical signs, diagnosis, treatment and inheritance. Proceeds from the sale of this 88 page high-quality paperback book will be divided between the Papillon Club of America and the Pekingese Charitable Foundation, Inc. **COMMON MEDICAL DISORDERS OF THE PAPILLON** is the most comprehensive resource available on Papillon health and is a necessary addition to the library of any breeder or owner of Papillon dogs. About the Author

Thomas K. Graves received the Doctor of Veterinary Medicine degree from Cornell University in 1991. He completed an internship in small animal medicine and surgery at The Ohio State University, and a residency in small animal internal medicine at Michigan State University. He obtained a PhD degree from the University of Rochester School of Medicine and Dentistry in 2002, and is currently an assistant professor of internal medicine at the College of Veterinary Medicine of the University of Illinois at Urbana-Champaign. Dr. Graves is a diplomate of the American College of Veterinary Internal Medicine, board-certified in small animal internal medicine. He is the author of numerous journal articles and textbook chapters on diseases of companion animals, and is a frequent lecturer at universities and continuing education meetings throughout the United States and in Europe. A breeder/exhibitor and judge of Pekingese dogs, Dr. Graves was elected to the Board of Directors of the Pekingese Club of America in 1992. He has been chair of the club's Health Committee since its inception in 1995, and is a founding director of the Pekingese Charitable Foundation, Inc.
